

The Friends of Archer Park Rail Museum, Rockhampton Queensland

QR C17 988 Steam Locomotive

The QR steam locomotive C17 988 was built by Walkers, Maryborough in 1952. The loco and its tender, on loan from QR, will be repainted in 'Brown Bomber' colours (brown and green) and have missing parts replaced, etc., to go on static display.

During its working life the locomotive was based at Cairns and was originally going to be restored and used on the Kuranda line. However this didn't happen and the locomotive was used in a Movie World theme display before coming to Archer Park on 25 May 2011.

C17 988 is still on a low loader waiting for cranes to lift it onto the Archer Park track. [lz 8309]

C17 988 on static display under Archer Park's carriage shade. [lz 8456]
